DETAILED ACTION

Response to Amendment

Claims 10-23 are pending. This action is in response to the amendment received May 24, 2006.

Response to Arguments

The rejection of claims 10-21 under 35 U.S.C. 102(b) as being unpatentable by Giovannoli (US 5,842,178) is maintained.

Applicant's arguments filed May 24, 2006 have been fully considered but they are not persuasive.

In response to the arguments concerning the previously rejected claims the following comments are made:

Applicant alleges that the prior art made of record fails to teach providing potential buyer information to the selected sellers, the potential buyer information including a number of buyers in the group of the plurality of buyers. The examiner disagrees with applicant's representative since Giovannoli teaches providing potential buyer information to the selected sellers, the potential buyer information including a number of buyers in the group of the plurality of buyers when he discloses filter system for accepting filter conditions from *buyers and sellers* wherein *a plurality of buyers* for communicating RFQs to said filter system (col. 2, line 39 to col. 3, line 25; abstract; figs. 2a-3). Giovannoli discloses network members inclusive of network buyers. In that the network buyers to generate request for quotation for goods and/or services. He

discloses linking *buyers to sellers* through the computer based communications network of network members having means for selectively controlling the linkage between network members in accordance with filter conditions of the buyers and/or sellers as well as filter conditions established by the computerized system. For example, Giovannoli discloses an insurance agency offers to provide buyers premium quotations from the insurance carriers for which the agency is an agent.

With regards to the claims rejected as taught by Giovannoli, the examiner would like to point out that the reference teaches the claimed limitations and thus provides adequate support for the claimed limitations. Therefore, the examiner maintains that Giovannoli taught the claimed limitations.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims **10-23** are rejected under 35 U.S.C. 102(b) as being anticipated by Leon et al. (US 6,052,673).

Re claims **10-21**, the rejection of claims 10-21) is maintained. Please see office action of March 9, 2006.

Re claims **22-23**, Giovannoli teaches number of buyers in the same group of the plurality of buyers is used by the seller to determine the selling price of the merchandise

items/services (col. 2, line 39 to col. 3, line 25; abstract; figs. 2a-3). Giovannoli discloses linking *buyers to sellers* through the computer based communications network of network members having means for selectively controlling the linkage between network members in accordance with filter conditions of the buyers and/or sellers as well as filter conditions established by the computerized system. For example, he discloses an insurance agency offers to provide buyers premium quotations from the insurance carriers for which the agency is an agent.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

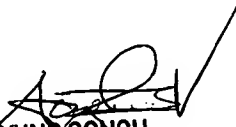

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
